PRESS COMMENT ON THE PROTEST.
New Yorker Staats Zeitung—A very clear, able argument, free from sentimentality. But it does not contain the slightest hint of what we intend to do. Probably we shall be able to submit a bill for damages after the war.
Cincinnati Volksblatt—It is unassailable in fact, law and logic, but deserves the reproach of coming too late.
Cincinnati Frei Presse—It is not likely to cause apprehension in Downing street. Nothing in it suggests that further violation will be considered an unfriendly act—a tone so readily adopted in our intercourse with Berlin.

New York Sun—The note reflects exactly America's sentiment.
New York World—On such a showing the terms of the American protest must be regarded as exceedingly temperate.
Boston Advertiser—The note states the American case very strongly.
Springfield (Mass.) Republican—Can not be regarded as disquieting, but there is iron in it.

FOOTBALL AN EDUCATOR.
Football has a definite place in the education of the youth of the land. That is the reason it is encouraged by the heads of the great schools of the nation. It is just as much a part of the course of study as though it appeared upon the printed list. The game is one that calls out the sturdier qualities of youth, and that develops not alone bone and muscle, but self-reliance, confidence and faith in ability to cope with one's fellow man. Education without the moral and the physical courage to back it up will not carry a man very far, and football and the allied sports supply the elements needed for the proper digestion of the book education. Once in a while some youth goes beyond the limit, just as he might go beyond the limit in any other direction. But when he neglects his classes and fails to make the prescribed grades, he finds himself automatically out of the game. It is the balanced ration that counts; whether it be for the stomach or the brain. The local high school team has given a fairly good account of itself this season. It started the season with the handicap of other losing seasons behind it, and at first it lacked the spirit of the winner. But the boys have found the meat of the contest, they have developed an idea of the value of individual effort and of team work, and they have gained as much as though the scores in every contest had been in their favor.
The overdue fall rains have at last arrived, and a lot of the fellows will forget that the Rogue valley ever needed such a thing as irrigation. But memory will return next June when vegetation again cries for moisture and there is none to give it. Perhaps the question will be solved by that time, however. There are things in the air.

Coffee
A cup of fine coffee!
It's a luxury.
There is plenty of fine coffee, if you could be sure of getting it while it's good and fresh.
You are sure of Schilling's Best—the name: double sure—the airtight tin; thrice sure—money-back.

Schilling's Best
The campaign for sugar beet acreage must be closed within a few days now. If the factory builders are to have the plant ready for making sugar next September the farmers must guarantee them the required acreage at once.
First Wilson lost the support of his premier, Bryan. Now the democratic floor leader in the lower house has decided that he can not follow the trail blazed by Woodrow. But what of it if the president gains Mrs. Galt?

HOLD CAPT. RICE AS WITNESS IN THE CHINK FRAUD CASE

San Francisco, Nov. 8.—Captain Emery Rice, one of the best known seamen on the Pacific coast, commander of the Pacific Mail liner Mongolia, may be a defendant in the Mongolia Chinese immigration fraud cases.
Federal District Attorney Preston, who has been investigating the discovery of 86 Chinese stowaways in the liner, gave the first definite intimation as to the government's action.
He appeared in Judge Dooling's court and asked that Captain Rice, Chief Engineer Walter Paul and Assistant Engineer W. S. Scott be held as witnesses on bond.
"I expect," said Preston, "to have

some of these men as defendants in this case before it is finished."
The grand jury is being impaneled today. The three Mongolia officers will appear before Federal Commissioner Krull to have their bonds fixed sometime this afternoon, it is believed, as the Mongolia is scheduled to sail today or tomorrow for New York.
Preston asks that the captain and chief engineer be released on \$1,000 bonds and Scott on \$500 bond. It is believed the first indictment in the case will be returned before the week is over.

MRS. VILLA ROBBED OF \$6,000 IN CASH AND JEWELS
Los Angeles, Nov. 8.—Several suspects were arrested and questioned by the police today in their investigation of the \$6,000 robbery at the residence of Mrs. Francisco Villa, wife of the Mexican rebel chieftain.
The money and jewelry were stolen by thieves who rifled trunks and dressers on the second floor of the Alvarado street house where Mrs. Villa lives with Mrs. V. Ramirez, wife of a Torreon civil engineer.
Mrs. Villa, who is ill, her nurse and several others were in the house during the robbery.

BLACK WATCH REGIMENT IS NEARLY WIPED OUT
Baltimore, Nov. 8.—How the famous Black Watch regiment charged the Germans at Loos September 25. In the face of a fire more terrible than greeted the historical "charge of the Light Brigade," was told today in a letter from a regimental captain to S. Johnson Poe, whose brother, "Johnny" Poe, Princeton football star and adventurer, lost his life.
Four thousand of the regiment, he said, marched into battle in the face of German machine gun fire, in perfect step, singing and cheering. Only 500 came back.
At the same time the German casualties were terrible and corpses choked the German trenches.

Save The Baby Use the reliable HORLICK'S ORIGINAL Malted Milk
Upbuilds every part of the body efficiently. Endorsed by thousands of Physicians, Mothers and Nurses the world over for more than a quarter of a century.
Convenient, no cooking nor additional milk required. Simply dissolve in water. Agrees when other foods often fail.

SEEK JUSTICE FOR LABORERS IS PLAN OF COMMISSION

New York, Nov. 8.—Labor's first great concerted campaign to better the conditions of workers will be directed by a permanent committee of the federal industrial relations commission, being organized by Chairman Walsh. Some of his assistants on the commission and Amos Pinchot, Frederick C. Howe, have been appointed to membership.
The committee will have headquarters at Washington and conduct a strong fight for legislation to ameliorate the condition of those who toil.
Explaining the new move today, Walsh said:
"We are engaged in a fight to obtain justice for workers, whether organized or unorganized. We intend to urge laws and to recommend a majority reported to the federal commission.
"Things are coming to a pretty pass when the president of the Pullman company admits that his men are underpaid and their hours too long, yet hires spies to prevent them from organizing to better their conditions. That is the sort of situation we are determined to meet.
"We will endeavor to secure passage of an act requiring the federal trade commission to consider as unfair competition the exploitation of labor through long hours, low wages, unsafe and unsanitary conditions, and authorizing the secretary of labor to prosecute such cases.
"We will resist the repeal of salutory labor legislation, such as the seamen's bill for example. Interstate shipment of armed guards, cannon and machine guns we will endeavor to stop except when consigned to military authorities.
"A healthy, well organized and well paid industrial force is the paramount factor in any plan for national preparedness.
"Eventually the committee will be enlarged until it includes representatives of every branch of trades unionism as well as unorganized labor. Subscriptions from labor unions and industrial concerns will finance the movement and to prevent the suspicion of a 'taint' no large subscription will be accepted from any source.
